ORGANISATION OVERVIEW

Athletics Northern Territory is the Peak Sporting Body for athletics in the Northern Territory (NT) and provides athletic programs which encourage and foster the physical wellbeing of all Territorians.

PROGRAM DESCRIPTION

As the Peak Sporting Body for athletics in the NT, we offer remote communities programs that provide a fun environment where children of all ages and abilities can engage in a range of athletic play based activities. It gives every child an opportunity to learn skill development, teamwork and grass roots sports participation.

PRODUCT OFFERING

Athletics NT offers an introductory program for a range of play and experiential learning activities. Participants will learn the fundamental skills of run, jump and throw using modified equipment. The program aims to increase participation and support the next generation of healthy, active and sport loving children. The key concept is fun and keeping kids moving, whilst promoting the values of effort, mutual respect within a team, responsibility and autonomy. Programs can be tailored to suit the needs of your community, school or region, with more advanced skill based coaching available.

PROGRAMS INCLUDE

1. Sessions times can be negotiated between community and Athletics Northern Territory. From single day, to full week programs are available.
2. Allowing the community to be exposed to another sport, and encourage athletics participation. We can also assist in creating an affiliated Athletics Club, if there is sufficient interest within the region.
3. Offer pathways for talent identification.
