ORGANISATION OVERVIEW

Northern Territory Athletics is the State sporting body for Athletics in the NT providing athletic programs which aim to encourage and help foster development of all Territorians.

PROGRAM DESCRIPTION

As the Peak Sporting Body for Athletics in the Northern Territory, we can offer remote communities programs that provide a fun environment where children of all ages and abilities can engage in a range of athletic play based activities. It gives every child an opportunity to learn skill development, teamwork and grass roots sports participation.

We can also offer Coach & Official Training to help communities run ongoing programs and athletics events.

PRODUCT OFFERING

Northern Territory Athletics provides a program which is an introduction to a range of play and experiential learning activities that involve maximum participation for all participants. Participants will learn the fundamental skills of run, jump and throw using modified equipment. The program aims to increase participation, support the next generation of healthy, active and sport loving children. The key concept is fun and keeping kids moving, whilst promoting the values of effort, mutual respect within a team, responsibility and autonomy. Programs can be tailored to suit the needs of your community, school or region, with more advanced skill based coaching available.

PROGRAMS INCLUDE

1. Sessions times can be negotiated between community and Athletics Northern Territory. From single day, to full week programs available.
2. Allowing the community to be exposed to another sport, and encourage Athletics participation. We can also assist in creating an affiliated Athletics Club, if there is sufficient interest within the region.
3. Offer pathways for talent identification - encourage the School Sport NT Coordinator within their area to include on representative team.
