PROGRAM DESCRIPTION

Our Artists on Tour program offers workshops from leading NT artists. The workshops cover a range of disciplines such as dance, hip hop, visual arts, circus, theatre and drama. These workshops are tailored to the requests and context of the communities we engage with to ensure it is specific to the groups' skill and age. These workshops connect practising arts professionals with remote and urban communities to offer their skills and build on the pre-existing talents in the region. Workshops have been created for practising artists, arts educators, young people and creative communities. Easily flexible to one - off and longer term workshop structures.

Our Performing Arts program also has a range of theatre and music shows we manage annually that can tour to communities for performances.

Artback NT's programs can not only offer unique skills to communities but show clear pathways to an artistic career for individuals.
