### ORGANISATION OVERVIEW

Corrugated Iron is the premier youth arts organisation in the Top End. We provide a Creative Schools Program that, through mentoring options, skills development and training, provides real opportunities for young people in remote areas to be drivers of meaningful artistic outcomes.

*Igniting Creativity... with a drama program for all ages.*

### PROGRAM DESCRIPTION

We deliver workshops across all art forms, including circus, drama, visual art, storytelling, puppetry, dance and film making. These are tailor-made in partnership with the host school or community. Corrugated Iron's experienced facilitators can provide workshops and activities ranging from 60 minutes, full-days and up to ten day or more programs which can be linked to curriculum outcomes, provide professional learning for teachers and other staff, support student engagement and assist with preparations for school performances.

### EQUIPMENT

We hire our equipment or purchase it as necessary, and this is costed into quotes.
